ABOUT US

Local South African based company passionate about outdoor life, nature and adventure. We strive to service our customers to the best of our ability and are driving a brand with quality and consistency weather it be wood or charcoal braai's, we provide longevity.

Our factory is based in Gauteng with focus on direct to market as well as retail. We also assist with specifications direct to architects, property developers and various professionals when required. We are able to customise and manufacture any braai, boma or fabrication request.

We have a passion for conservation and an animal that is close to our hearts is the Rhino. This can be seen through our logo, the Rhino is present through everything we do here at Africa Braai. We work very closely with Insimbi Legacy Projects, which is a Non-Profit organisation who are fighting the battle against poachers in the conservation of this beautiful animal. For every Boma, Braai or Fabrication purchased from Africa Braai a portion of the sale will go to Insimbi Legacy Projects to help with the preservation of the Rhino's.
